MASSACHUSETTS WHITE CANE LAW

All motorists, when they see a pedestrian who uses a dog guide or a white cane at a street crossing, **must come to a complete stop.**

Massachusetts General Laws Chapter 90 Section 14A

“Whenever a totally or partially blind pedestrian, guided by a guide dog or carrying in a raised or extended position a cane or walking stick which is white in color or white tipped with red, crosses or attempts to cross a way, the driver of every vehicle approaching the place where such pedestrian is crossing or attempting to cross shall take such precautions as may be necessary to avoid injuring such pedestrian. Nothing in this section shall be constructed to deprive any totally or partially blind person, not carrying such a cane or walking stick or not being guided by a dog, of the rights and privileges conferred by law on pedestrians crossing ways, nor shall the failure of such blind person to carry a cane or walking stick or to be guided by a guide dog while on the ways of the Commonwealth be held to constitute or be evidence of contributory negligence. Whoever violates any provisions of this section shall be punished by a fine of not more than one hundred dollars.

OCTOBER IS WHITE CANE AWARENESS MONTH

The white cane is a symbol of blindness and independence. The white cane allows a legally blind person to travel independently. The introduction of the White Cane in North America is attributed to the Lions Clubs International. In 1931, they started promoting the use of white canes for people who are blind as a national program.

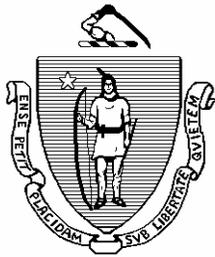

International White Cane Day is October 15. All states and many other counties have White Cane laws, which allow the legally blind person the right of way at street crossings. Many people are confused when they see a person with a white cane (support or long cane) or a person using a dog guide, especially if the person seems to have some usable vision.

When in doubt, ask if the person needs assistance.

Do not grab the person, cane or dog guide!

Do not pet a dog guide without asking first. Most dog guides are working & should not be petted since it can be distracting for the dog.

Massachusetts White Cane Law states that All motorists, when they see a pedestrian who uses a dog guide or white cane at a street crossing, **must come to a complete stop.**

White Cane Awareness Month is to promote better understanding of what a white cane means & how pedestrians and motorists can assist long cane users and dog guide users at street crossings.

There are a variety of white canes depending on a person's visual impairment, age, height and specific needs.

The two main types of white canes used by legally blind persons are:

WHITE SUPPORT CANE with red at the bottom, which is designed to identify the person as legally blind but has usable travel vision and is used to assist with depth perception on stairs or curbs. And/or:

LONG WHITE CANE with red at the bottom. This cane is for independent travel and to avoid obstacles.

Specialized training for both types of canes and travel skills are provided by a Certified Orientation and Mobility Specialist.

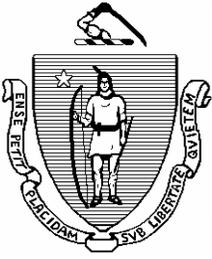

These canes may be rigid or collapsible. They are used to help navigate the area ahead of the user. The long cane allows a person who is blind or visually impaired to check for objects in the path of travel and changes in the walkway surface.

A small percentage of persons who are legally blind use a dog guide rather than a long cane but usually need long cane and orientation & mobility training before acceptance to a dog guide school.

Legal Blindness does not mean total blindness. Most persons who are legally blind have some usable vision. Some may be able to still read (regular or large print), recognize faces and colors (or not), depending on the type of vision impairment and degree of vision loss. Vision may also change throughout the day depending on the time of day, health of person, lighting of area, etc.

For more information on White Cane Awareness Month or for white cane training, contact the Orientation & Mobility Department at the Mass. Commission for the Blind, 800-392-6450(V/TTY) x7581.

Top Ten List of **DON'Ts**

For Motorists When They See a Pedestrian

Using a White Cane or Dog Guide at Street Crossings.

10. **Don't** stop your car more than five feet from the crosswalk line.
9. **Don't** yell out "it's ok to cross".
8. **Don't** get impatient when waiting for pedestrian who is visually impaired to cross. If the pedestrian places the long cane into the street, it usually indicates he or she will begin a street crossing. If the cane traveler takes a step back & pulls back the cane from the curb, it usually indicates the person will not be crossing at that time.
7. **Don't** consider a 'rolling' stop as a complete stop. A stop sign means STOP!
6. **Don't** turn right on red without coming to a full stop and looking for pedestrians. The Right on Red Law requires drivers to come to a complete stop prior to making right turn.
5. **Don't** fail to stop for pedestrians at all crosswalks whether or not there is a traffic signal or stop sign. Come to a full stop.
4. **Don't** stop your car in the middle of the crosswalk.
3. **Don't** pass another car, stopped, waiting for pedestrians cross the street.
2. **Don't** wave to pedestrians who are using a white cane or dog guide to indicate that you are waiting for them to cross. They CAN NOT see you.
1. **Don't** honk!

Massachusetts White Cane Law: All motorists, when they see a pedestrian who uses a dog guide or a white cane at a street crossing, **must come to a complete stop.**
